

## OBJECTIVE

As a recent university graduate with a passion for web development and user experience, I am eager to launch my career as a software developer within a collaborative and innovative organization that values a strong company culture

## EXPERIENCE

### OPHEA, Toronto, ON — Web Designer

Jan 2022 - Present

- Developed Javascript applications to assist and automate data-entry processes in Excel
- Created web pages in a content management system while formatting HTML content to improve the website's accessibility
- Updated information on 1000+ Ontario Schools in two days using a custom script, saving 20 hours of manual data entry work

### Stadcon Group, Toronto, ON - SEO Specialist & Web Developer

Feb 2019 - May 2022

- Collaborated closely with clients to design and develop custom websites using HTML, CSS, JavaScript, React.js, PHP, and WordPress
- Managed an advertising campaign that generated 100+ new customer leads
- Used several Adobe programs to create and modify digital assets such as logos, images, videos and icons

## EDUCATION

### University of Helsinki — *Full stack Open 2022*

Oct 2022 - Jan 2023

- Completed Full Stack Open 2022 course from the University of Helsinki, gaining valuable knowledge in React, Redux, Node.js, MongoDB, GraphQL, and TypeScript

### OCAD U, Toronto, ON — *Bachelor of Design (Digital Futures)*

Sep 2018- April 2022

- Created web and mobile applications, games, UX/UI designs, and engaged in digital entrepreneurship
- Course topics on front-end web development, Javascript fundamentals, physical computing, game engines, graphic design and UX/UI fundamentals
